Customers · Fraud

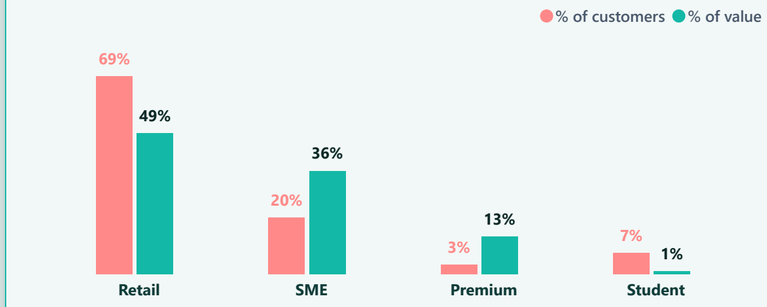

Region: All | Product: All | Segment: All

Overview | Credit Risk | Customers Fraud

Customers	Dormant + closed a/cs	Loan + deposit customers	Fraud rate	Night-time fraud (0–5h)	Complaints > SLA
5,000	11%	40%	35 bps	11%	37%
4,869 hold an open account	dormant 6.8% · closed 4.2%	cross-sell depth	450 cases · 35% blocked in time	of fraud but only 3% of volume	1,800 complaints · 243 open

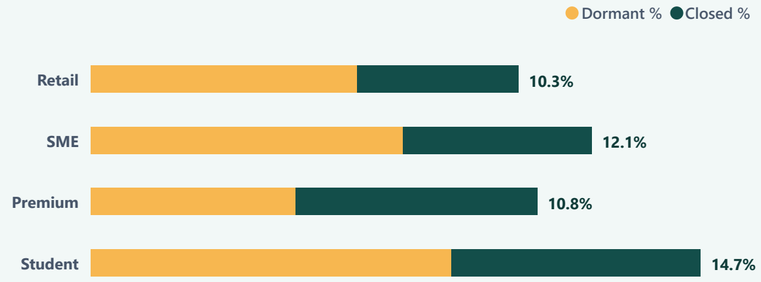

Who creates the value?

Share of customers vs share of annual value (%)

Who is going quiet or leaving?

Share of accounts dormant or closed, by segment

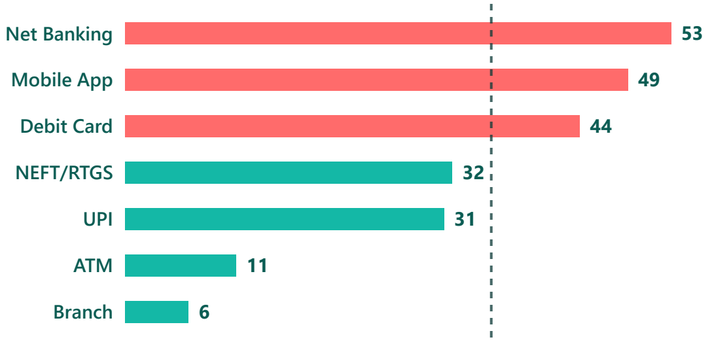

Where can we cross-sell?

% of customers holding each product, by segment

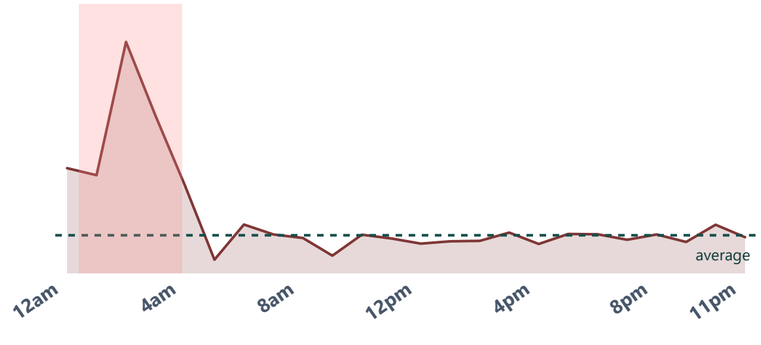

Fraud by channel

Fraud cases per 10,000 debit transactions

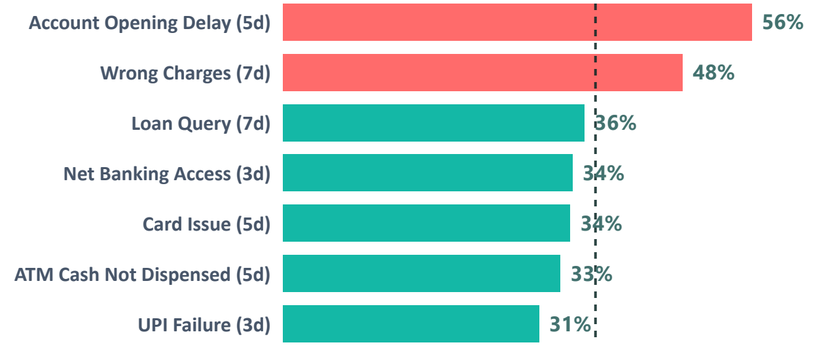

When does fraud strike?

Fraud cases per 10,000 debits, by hour of day

Are we fixing complaints on time?

% resolved after SLA, by complaint type (SLA days in brackets)

SO WHAT Retail + SME create 86% of value; Students go quiet fastest (15%). Fraud peaks on Net Banking and after midnight. Account Opening Delay misses SLA 56% of the time (slowest: Park Street)
